PROJECTS

CloudSentinel – Cloud Security Monitoring Platform	2026
<i>Personal Project GitHub</i>	
- Developed a cloud-security monitoring platform focused on visibility into AWS resources and security-related events. - Built a practical security workflow around cloud infrastructure monitoring and presented results through a centralized application interface.	
SentinelX – Cybersecurity Monitoring & Threat Detection Platform	2026
<i>Personal Project GitHub</i>	
- Built a cybersecurity-focused platform for monitoring security events and organizing threat-detection information in a centralized interface. - Applied security monitoring, detection, backend, and web-development concepts to create a portfolio-scale cybersecurity application.	

CREDENTIALS & ACHIEVEMENTS

AWS Security Champion Knowledge Badge	2026
<i>AWS Skill Builder</i>	
AWS Networking Core Knowledge Badge	2026
<i>AWS Skill Builder</i>	
IBM AI Fundamentals	2026
<i>IBM SkillsBuild</i>	
- Earned AWS Security Champion and AWS Networking Core Knowledge Badges through AWS Skill Builder, plus IBM AI Fundamentals through IBM SkillsBuild. - Built two portfolio-scale projects focused on cloud security and cybersecurity monitoring.
